Complexity of every operations on singly linked list:

Operation		Complexity
Insertion	at Head	O(1)
	at Tail	O(N) -> without tail tracking O(1) -> with tail tracking
	at any position	O(N)
Deletion	at Head	O(1)
	at Tail	O(N)
	at any position	O(N)
Printing	Forward	O(N)
	Backward	O(N) -> using recursion
Input		O(N) -> with tail tracking O(N*N) -> without tail tracking
Sorting		O(N*N) -> using selection sort
